

CASBO is the leading association for school business and operations leaders in California public education.

## Who We Are

CASBO is a nonprofit membership organization serving more than 30,000 professionals who manage the financial, operational, and administrative functions that keep school districts running, impacting over 6 million students statewide.

## Who We Represent

CASBO represents leadership across the full spectrum of school district business and operational functions that support day-to-day district operations, including:

- Chief Business Officials
- Superintendents
- Finance & Accounting
- Human Resources & Payroll
- Technology & Data Systems
- Transportation & Logistics
- Administrative Services
- Purchasing & Risk Management
- Child Nutrition & Special Programs
- Facilities, Maintenance, & Construction

## What We Do

We provide the knowledge, connections, and voice school district leaders rely on to navigate California's complex education environment

### Professional Development

Conferences, training, and certification programs designed for California school business and operations leaders

### Professional Community

A statewide network connecting district leaders to share expertise, solve challenges, and exchange best practices

### Advocacy

Government relations and legislative insight representing the operational and financial realities of California school districts

## Why CASBO Matters

For partners, policymakers, and education stakeholders, CASBO provides:

Trusted expertise in school finance & operations

Direct access to & connection to district decision-makers

Actionable insight into how policy & funding decisions impact school district

A collaborative partner in strengthening California public education systems

## Supporting School Business Across California
